

ANWESH BINDHANI

NIT Rourkela — AI/ML Enthusiast — Mining Engineering — Full Stack Developer — Creative Technologist

📞 7326915957 ✉ anweshbindhani@gmail.com [in LinkedIn](#) github.com/Anwesh0407

EDUCATION

National Institute of Technology Rourkela

Dual Mining Engineering

2024 – 2029

Rourkela, Odisha

EXPERIENCE

Freelance Web Developer

2025 – Present

Full Stack Developer

Remote

- Designed and developed responsive websites for clients using modern front-end and back-end technologies.
- Built scalable and visually optimized web interfaces with improved user engagement and performance.

Freelance Photographer & Cinematographer

2025 – Present

Creative Media Freelancer

Remote

- Executed professional event and convocation shoots for clients handling cinematography, editing, and post-production workflows.
- Produced cinematic visual content using industry-standard editing and motion design tools.

PROJECTS

Data Science Salary Prediction System | Python, Selenium, Flask, Scikit-learn

2026

- Developed an ML pipeline to predict data science salaries using 1000+ real-world Glassdoor job postings scraped using Selenium.
- Performed preprocessing, feature engineering, and model optimization using Linear Regression, Ridge Regression, and Random Forest.
- Achieved best results using Random Forest with MAE of approximately \$11.22K and deployed using Flask API.

Full Stack Portfolio Website | JavaScript, Full Stack Development

2026

- Designed and developed a fully responsive portfolio website integrating both front-end and back-end architecture.
- Implemented modern UI/UX components, responsive layouts, optimized routing, and scalable deployment workflows.

Research on Stellite Technology in Mining Industry

2026

- Conducted research on industrial applications of Stellite alloys in mining environments focusing on wear resistance and durability.
- Analyzed material properties and implementation challenges of cobalt-based superalloys in mining equipment.

TECHNICAL SKILLS

Languages: Python, C, JavaScript, SQL

Web Development: Front-End Development, Back-End Development, Responsive Web Design

AI / ML: Scikit-learn, Pandas, NumPy, Flask, Selenium

Creative Tools: After Effects, Premiere Pro, Photoshop, Cinematography, Motion Graphics

Developer Tools: GitHub, VS Code, Linux

LEADERSHIP & EXTRACURRICULAR

Cinematics Club, NIT Rourkela

2025 – Present

Secretary

NIT Rourkela

- Led creative planning and media production activities including short films and cinematography projects.

Ritvic - Nukkad Natak Society

2025 – 2026

Lower Executive Body Member

NIT Rourkela

- Contributed to street play productions, script coordination, and creative performance activities.

ACHIEVEMENTS

- Participated in hackathons and collaborative problem-solving events.
- Worked on multiple short film productions and freelance client projects.
- Active participant in athletics, debating, and creative storytelling activities.
